

Land Contamination & Reclamation

Volume 17: Parts 3–4
November 2009

Land Contamination & Reclamation is published by EPP Publications Limited, 6 Eastbourne Road, London W4 3EB, UK.
Tel. +44 (0)20 8400 1601, email enquiries@epppublications.com, www.epppublications.com

1. INTRODUCTION TO THE SPECIAL EDITION	
Smart environmental management	317
<i>K. Gruiz and T. Meggyes</i>	
2. ENVIRONMENTAL MANAGEMENT	
Efficient environmental management and MOKKA ¹	323
<i>K. Gruiz</i>	
Risk-based environmental management: end-user demand in Hungary ¹	327
<i>Á. Czibók</i>	
Efficient environmental management and MOKKA: the European context ²	331
<i>Y. Spira</i>	
EURODEMO: end-user needs ²	335
<i>D. Edwards</i>	
Risk-based environmental management and decision making ¹	337
<i>I. Zöldi</i>	
3. ENVIRONMENTAL RISK MANAGEMENT AND DECISION MAKING	
Scientific and engineering 'improvement' of environmental risk management by MOKKA ¹	343
<i>K. Gruiz</i>	
Risk management and decision making in remediation option selection ²	347
<i>S. Colombano, C. Merly and H. Gaboriau</i>	
Complex environmental risk management of a former mining site ^{1,3,4}	357
<i>K. Gruiz, E. Vaszita, Z. Siki, V. Feigl and F. Fekete</i>	
4. SITE ASSESSMENT AND MONITORING TOOLS	
Integrated and efficient assessment of contaminated sites ¹	373
<i>K. Gruiz</i>	
Early warning and monitoring in efficient environmental management ¹	387
<i>K. Gruiz</i>	
Cyclodextrin-containing sensors to provide an early warning of contamination ¹	407
<i>É. Fenyvesi and L. Jicsinszky</i>	
Spatial modelling of contamination in a catchment area impacted by mining: a case study of the Recsk copper mine, Hungary ⁵	415
<i>G. Jordan, A. Van Rompaey, A. Somody, U. Fügedi and A. Farsang</i>	
Remote sensing as a promising tool for environmental assessment ¹	425
<i>M. Szomolányi Ritvayné, G. Frombach, A. Nagy</i>	
<i>In situ</i> site assessment: a short overview and description of the field-portable XRF and its application ^{1,3,4,6}	433
<i>A. Sarkadi, E. Vaszita, M. Tolner and K. Gruiz</i>	
Measuring adverse effects of contaminated soil using interactive and dynamic test methods ^{1,6}	445
<i>K. Gruiz, M. Molnár and V. Feigl</i>	
Microcosm models and experiments: types and applications ^{1,3,4}	463
<i>K. Gruiz and E. Vaszita</i>	
Complex leaching of metal-sulfide-containing mine waste and soil in microcosms ¹	465
<i>E. Vaszita, J. Szabó and K. Gruiz</i>	
Bioavailability- and bioaccessibility-dependent mutagenicity of pentachlorophenol (PCP) ¹	475
<i>C. Hajdu, K. Gruiz and É. Fenyvesi</i>	
Chemical stabilization of toxic metals in soil microcosms ^{1,3,4}	485
<i>V. Feigl, N. Uzinger and K. Gruiz</i>	
Laboratory testing of biodegradation in soil: a comparison of chemical and biological methods ¹	497
<i>M. Molnár, É. Fenyvesi, K. Gruiz, G. Illés, Z. Nagy, C. Hajdu and P. Kánnai</i>	
5. ENVIRONMENTAL RISK ASSESSMENT	
Environmental data interpretation and risk assessment ¹	511
<i>K. Gruiz</i>	
GIS-based quantitative hazard and risk assessment of an abandoned mining site ^{1,3,4}	515

E. Vaszita, Z. Siki and K. Gruiz

6. DEVELOPMENT OF REMEDIATION TECHNOLOGIES

Contaminated-site remediation: role and classification ¹	535
<i>K. Gruiz</i>	
Soil bioremediation – a bioengineering tool ¹	545
<i>K. Gruiz</i>	
<i>In situ</i> soil remediation: the reactor approach ¹	555
<i>K. Gruiz</i>	
Combined chemical and phytostabilization: field application ^{1,4}	579
<i>V. Feigl, A. Anton, F. Fekete and K. Gruiz</i>	
Cyclodextrin-enhanced soil-remediation technologies ¹	587
<i>É. Fenyvesi, M. Molnár, L. Leitgib and K. Gruiz</i>	
Development of cyclodextrin-enhanced soil remediation: from the laboratory to the field ¹	601
<i>M. Molnár, L. Leitgib, É. Fenyvesi and K. Gruiz</i>	
Demonstration of soil bioremediation technology enhanced by cyclodextrin ¹	613
<i>É. Fenyvesi, L. Leitgib, K. Gruiz, G. Balogh and A. Murányi</i>	
Bioremediation of areas polluted with chlorinated and non-chlorinated hydrocarbons ¹	621
<i>A.A.M. Langenhoff</i>	
Practical experience with <i>in situ</i> remediation technologies – application problems and solutions ²	629
<i>L. Wimmerova</i>	
Enhancing the efficacy of permeable reactive barriers ¹	637
<i>T. Meggyes, M. Csöväri, K.E. Roehl and F.-G. Simon</i>	
EURODEMO – environmental efficiency of remediation ²	653
<i>D. Müller and H. Gaboriau</i>	
Verification tool for <i>in situ</i> soil remediation ¹	663
<i>K. Gruiz, M. Molnár and É. Fenyvesi</i>	
EURODEMO – improving the uptake of efficient soil and groundwater remediation technologies ²	687
<i>Y. Spira, D. Edwards, J. Henstock, H. Gaboriau, C. Merly, D. Müller, V. Birke and H. van Duijne</i>	
7. MOKKA DATABASES	
Web-based information system and decision-support tool: the structure and use of the MOKKA IT tool ¹	697
<i>K. Gruiz</i>	
The informatics background to the MOKKA project ¹	705
<i>Z. Siki</i>	
Promoting knowledge and learning through remediation demonstration projects ²	709
<i>J. Henstock</i>	
EUGRIS – more than a database ⁵	713
<i>J. Frauenstein and P. Bardos</i>	
The interface between the MOKKA decision-support tool and EUGRIS: an integrated approach ¹	719
<i>J. Fehér, P. Bardos, G. Fehér and Zs. Dargai</i>	
8. SUMMARY	
Summary	731
<i>K. Gruiz and T. Meggyes</i>	

The papers in this special edition originated in the following projects and events:

1. MOKKA (Innovative Decision Support Tools for Risk Based Management of the Environment in Hungary)
2. EURODEMO (European Co-ordination Action for Demonstration of Efficient Soil and Groundwater Remediation)
3. DIFPOLMINE (Diffuse Pollution from Mining Activities)
4. BANYAREM (Risk Reduction of Diffuse Pollution of Mining Origin)
5. MOKKA Conference
6. LOKKOCK (Development of Novel Soil Testing Methods in Support of Site-specific Risk Assessment).
